

Nomadic Display recognizes how important it is to adopt ECO-FRIENDLY practices towards the environment. Moreover, it is our priority to apply concrete measures in the making and the production of our products and services. We are aware that you are more and more concerned with the environment and so are we.

Here are our **Green Strategies**:

POLLUTION PREVENTION & ENERGY CONSERVATION.

- Significant reduction in the use of dangerous goods
- Graphic impression with water soluble based ink
- Packaging & product designed to minimize the transport impact
- Employee's involvement to adopt Eco-friendly actions

PRODUCTS VIABILITY

- Products made to be reused and to be laid out again and again
- The “**Lifetime Warranty – No Questions Asked**“ offered with on Instand Pop up display purchase allows an unlimited use

RECYCLABLE PRODUCTS

- We use Aluminum as a composite in our products. Aluminum is a material that can be recycled endlessly
- Our Polythene cases is recyclable as well
- We print on Fabric

USE OF RAW MATERIALS (PRE AND POST CONSUMPTION):

- The use of recycled aluminum pre-consumption, of MDF as well as recycled cardboard and paper post consumption
- New Eco-friendly products: In order to prevent water and ground pollution **Nomadic** opted
- High quality **eco.fi** fabric panels made from 100% certified post consumption recycled plastic bottles

Reduce, Reuse & Recycle
Our GREEN Commitment!
